01

### Onboarding you can return to

Every new hire starts with a self-paced training course, and it stays available long after your first few weeks, so you can come back to it whenever you want to revisit the more challenging topics.

02

### Operations on call

Our Operations team is readily available to jump on a call and support our Sales partners, whether you're working through a tricky condition or just want a second set of eyes on a file.

03

### In-house underwriting

Our underwriting is handled in-house, so your files stay with a team that knows our programs and processes instead of being passed to an outside party.

### Open doors through ownership

Our open-door policy extends through senior leadership and ownership. Ideas from our team members help shape how we operate, and when something works, we share those successes and ideas across the organization instead of keeping them siloed.
